

WASTE AND WRECKAGE IN PATH OF TORNADO

SWEPT THROUGH CENTRAL ILLINOIS, CUT WIDE SWATH

FLYER OF DETROIT-CHICAGO AIRPLANE WAS KILLED

MACHINE CAUGHT IN THE VORTEX OF STORM AND WAS DASHED TO EARTH

Chicago, May 19.—(UP)—Waste and wreckage lay today in the path of a tornado which last night swept through central Illinois, cut a swath through several Chicago suburbs and then apparently vanished.

Ross Kirkpatrick, flyer of a Detroit-Chicago airplane, was killed when his machine was caught in the vortex of the storm and dashed to the earth. Kirkpatrick was an employee of the Ford Motor Company, making regular flights between Detroit and Chicago.

A small house in the Chicago suburb of Harvey was lifted from its foundation and carried 50 feet by the wind. Nineteen year old Heloise Scoush was in the building during its flight but escaped serious injury.

Roofs of more than a score of other buildings in Harvey were torn off.

Plate glass windows were shattered by hail stones of enormous size. Down state in Illinois the storm brought immense property loss and eight persons were injured.

1 DEAD, 3 HURT IN INDIANA

Indianapolis, May 19.—One person was dead and three were injured today in the wake of a terrific wind and thunder storm which swept the north and central portions of Indiana last night.

A bolt of lightning killed William Arnold, farmer living near Fort Wayne. Three persons were hurt in accidents in Indianapolis during the storm.

The wind unroofed farm buildings near LaFayette and tore down telephone poles and uprooted trees.

CYCLONIC WINDS SWEEP 2 STATES

Cyclonic winds, driving rains and electric storms of intensity swept Illinois and Indiana within the last 24 hours.

Reports today showed three persons were dead and property damage estimated between \$300,000 and \$500,000 had been done.

Storms reached greatest intensity at Harvey, Ill., where houses were unroofed, trees uprooted and wires blown down by a cyclone of short duration. The heavy storm also was felt in mid-Illinois, Pana, Danville and other middle state cities reporting considerable damage.

In Indiana there was a driving rain accompanied by a severe electric storm. This storm was felt the worst near Fort Wayne, Ind.

Chicago's streets were flooded after a drenching rain last night.

The three persons killed were Ross Kirkpatrick, an aviator whose plane was caught in the vortex of the cyclonic winds and was dashed to the earth; William Arnold, who was struck by lightning at Fort Wayne, and killed; and Martin Coggins, who, blinded by the rain, was killed near Harvey, when he walked into a train.

MANN ACT NOT VIOLATED AND CHARGE DROPPED

Detroit, Mich., May 19.—(UP)—Following a federal investigation here, Mrs. Eunice Potter, widow of Manitowoc, Wis., and William G. Clark, of Two Rivers, Wis., were released from custody because of insufficient evidence to warrant holding them on a charge of violating the Mann act.

Clark and Mrs. Potter were arrested together here as they boarded a ferry to cross the Detroit river for Canada. Both subsequently confessed they were already married.

On their release Clark left for Ann Arbor, Mich., to join his wife, who was called there a month ago by the illness of a sister.

CLERK RUN OVER, INSTANTLY KILLED

Duluth, May 19.—(UP)—Run over by a freight car he was attempting to block in the Duluth yards, Andrew A. Manilla, 25, a clerk, was instantly killed today. His skull was crushed. Manilla's parents and two sisters survive. His father is seriously ill at the home and is not expected to live. A brother was drowned three years ago.

Passenger, Freight Smash at St. Paul, Many Hurt

BODIES OF TWO NEWLYWEDS FOUND IN SAWDUST PILE

Mooretown, O., May 19.—(UP)—The bodies of Mr. and Mrs. Omar Miller, newlyweds, were found under a pile of sawdust at their home here today, a week after the couple disappeared.

After a cursory examination authorities said they believed the couple had been poisoned. They were married two months ago. No motive for murder was discovered.

No marks of violence was found on the bodies nor were bottles or other receptacles that might have contained poison discovered.

SPONSORS OF MANY BILLS ARE PERTURBED

FEAR CONGRESS MAY ADJOURN BEFORE MEASURES COME UP

SENATE REPUBLICAN STEERING COMMITTEE TO REVISE ITS PROGRAM

Washington, May 19.—(UP)—Fearing congress may adjourn before their measures are considered, sponsors of many bills today were demanding preferential action. The senate republican steering committee will revise its program this week.

The house rules committee has prepared the \$500,000 federal judges salary increase bill, rivers and harbors and coal legislation for action when farm relief is disposed of, which is expected in about two weeks.

While no date for adjournment has been fixed, talking of going home—probably June 1.—persists.

The senate farm bloc under leadership of Sen. Gooding, republican, Idaho, met again today to form plans for immediate action on farm relief. The farmer-senators have decided not to wait until the house acts on the Haugen bill.

At the same time other senators were marshalling forces to assure early consideration of the following: Goff prohibition enforcement bill, Lausanne treaty.

Five-year army aviation program. French debt settlement. Dill radio commission bill. Copeland coal bill.

Borah measure authorizing return of alien property seized during the war.

Measure to lease Muscle Shoals. Army officers retirement bill.

INTERSTATE BRIDGE PLANS AT HUDSON AND STILLWATER

Hudson, Wis., May 19.—(UP)—The states of Wisconsin and Minnesota are agreed today on plans for building interstate bridges across the Mississippi river at Stillwater and Hudson.

Members of the highway commissions of the two states met here yesterday and agreed that a free bridge should be made of the present toll bridge here and that the old wooden bridge in service at Stillwater should be replaced. Engineers representing both commissions will survey the situation and decide on locations for new bridges.

The conference removed the one obstacle to the new bridges which had been disagreement over the advisability of a bridge where the Hudson toll bridge is located. Both states are agreed on a new structure here.

PRAY FOR SAFETY OF LOS ANGELES RADIO EVANGELIST

Los Angeles, Calif., May 19.—(UP)—Thousands of worshippers of Almee Semple McPherson, noted radio evangelist, gathered at the beach at Venice near here today and prayed for the safety of their spiritual leader.

Many of them had prayed during the entire night, clinging to a thread of hope that she was alive.

Mrs. McPherson was believed drowned while swimming in the surf late yesterday but her followers refused to believe she had left them until the body was recovered.

SENATE STIRRED BY CHARGES OF CORRUPTION

URGED TO ACTION BY THE DEMOCRATS, STARTS INVESTIGATION

PENNSYLVANIA PRIMARY IS TO BE PROBED SOON

Washington, May 19.—(UP)—Urged to action by democratic charges of corruption and enormous campaign expenditures in the Pennsylvania primary, the senate today adopted resolutions authorizing an immediate investigation of campaign expenses and contributions in senatorial contests.

Senator Reed, democrat, Missouri, forced the resolution to a vote. The vote was 59 to 32.

Reed, Missouri, introduced a resolution to authorize an investigation of campaign expenses of all senators who come up for election this fall. He demanded immediate consideration but upon objection of Sen. Reed, Pennsylvania, republican, it went over until tomorrow under the rules. The Missouri senator, however, insisted upon immediate consideration and moved that his resolution be taken up.

Observing that there had been 34 votes against taking up the resolution to investigate and only 13 against the resolution itself, Reed observed sarcastically that in the 74 minutes elapsing between the votes 21 senators had changed their minds.

"That's not fair," shouted Curtis, majority leader, running down the aisle. "There's a difference between voting to take up a measure and voting on the measure itself."

"The difference," retorted Reed, "is that in the first instance a senator can make the excuse that he didn't want to displace other important business. If I had waited until tomorrow to press this, the same excuse would have been raised."

Sensors voting against the resolutions were:

Bingham, Connecticut; Ernst, Kentucky; Fernald, Maine; Fess, Ohio; Goff, West Virginia; Moses, New Hampshire; Oddie, Nevada; Sackett, Kentucky; Schall, Minnesota; Smoot, Utah; Wadsworth, New York; and Warren, Wyoming, all republicans.

The resolution authorizes immediate appointment of the investigating committee which would be empowered to subpoena witnesses and production of papers or documents to ascertain what money or rewards were promised or contributed in senatorial campaigns.

Reed announced he would ask soon for an appropriation to defray the cost of the investigation. He said he hoped the movement "from the rear to the mourners' bench in front" would continue.

Reed said he had heard rumors that in the recent Illinois primary between \$1,000,000 and \$1,500,000 was spent by some candidates.

"If that charge is true, the country ought to know it," he said.

"It is charged that between \$2,000,000 and \$5,000,000 was spent in Pennsylvania. If that is true, every man concerned in it ought to be sent to the penitentiary as soon as he can be tried. We are sending men to jail for selling a bottle of beer. Here's an act that if it is tolerated will eat like a cancer into the republic."

W. E. D. STOKES, CAPITALIST, DIED AT NEW YORK

New York, May 19.—(UP)—W. E. D. Stokes, wealthy retired capitalist, died here today.

He had been ill several days from double pneumonia.

Stokes gained nation-wide attention a few years ago through the sensational divorce action involving him and his wife, Helen Wood Stokes, former Denver, Colo., beauty.

5 KILLED, 21 HURT IN BLOODY RIOTS HINDU-MOSLEM

Calcutta, May 19.—(UP)—Five men were killed and 21 injured in Hindu-Moslem riots at Kharagpur. When discontented workers at an Anglo-Indian jute mill stoned the gatekeeper and surged around the grounds, police were called. They have control of the situation and are patrolling the riot area.

TEUTONS ACCORD CONFIDENCE IN NEW MINISTRY

Berlin, May 19.—(UP)—The reichstag, by a rising vote today accorded the new ministry of Chancellor Marx its confidence.

The vote was given after Marx had addressed the assemblage. He outlined his policies, which included fulfillment of the Dawes plan and adherence to the Locarno European security treaties. The Marx government succeeded that of former Chancellor Hans Luther.

BYRD NOW PLANS FLIGHT TO SOUTH POLE

U. S. NAVY FLIER BENT ON CONTINUING EXPLORATIONS

TO START FROM NEW YORK BY SHIP THE MIDDLE OF SEPTEMBER

By ARTHUR LEWIS (United Press Staff Correspondent)

Green Harbor, Spitzbergen, May 19.—Lieutenant Commander Richard E. Byrd, United States navy, who flew from Spitzbergen to the north pole and back by airplane, will attempt a flight to the south pole, he announced here today.

He will start from New York by ship the middle of September.

Byrd will use his two Fokker planes for the flight. He will attempt to reach Framheim, which was used by Captain Roald Amundsen as a base for his expedition, when he visited the south pole, and will start his flight from there.

If he reaches the south pole, he plans to return north next spring and fly from Etah, Greenland, exploring the sector of the Arctic in that district west of Spitzbergen, which he had hoped to visit this year.

Byrd's ship, the *Chapier*, was scheduled to leave King's Bay for London today.

Floyd Bennett, who accompanied Byrd as pilot on his dash to the north pole, will pilot one of the planes while Berent Balchen, a Norwegian, possibly will pilot the other.

A Norwegian ice pilot also will be taken to the base at Framheim.

12 PASSENGER LOCOMOTIVES ORDERED BY N. P.

ARE OF NEW TYPE AND COST APPROXIMATELY \$1,300,000

TO BE USED IN SERVICE OF HAULING NORTH COAST LIMITED

St. Paul, May 19.—(UP)—Twelve new passenger train locomotives have been ordered by the Northern Pacific railroad at a cost of \$1,300,000 for service in hauling the North Coast limited and other transcontinental trains, Charles Donnelly, president of the road, announced today.

The locomotives are of a new type and will be larger and more powerful than any passenger locomotives ever operated in the northwest heretofore. They are to be delivered this summer.

They were designed by the Northern Pacific and will have a four wheel leading truck, eight driving wheels and four trailing wheels. The tender will have 6 wheel trucks and a capacity of 24 tons of coal and 15,000 gallons of water. The combined weight of engine and tender will be 720,000 pounds.

STAPLES MAN DIED AFTER AUTO MISHAP

Lake Elmo, Minn., May 19.—(UP)—Ralph Dodge, 30, of Staples, Minn., died at 4:40 a. m. today of injuries suffered Tuesday night when his automobile was struck at a crossing near here by a Chicago, St. Paul, Minneapolis & Omaha train.

DISCUSS POINT WHERE ARMAMENT BE LIMITED

PREPARATORY COMMISSION ON DISARMAMENT MEETS AT GENEVA

ENGLAND URGES CONSIDERING ONLY PEACE TIME STANDING ARMIES

By HENRY WOOD (United Press Staff Correspondent)

Geneva, May 19.—The preparatory commission on disarmament, meeting here, under League of Nations auspices, today discussed the point where arms limitation should stop.

Viscount Cecil, representing Great Britain, urged that peace time standing armies only should be considered.

France insisted that in limiting peace time effectiveness, the armed strength of potential enemies and the ease of attack on each nation should be considered.

A committee was named to draw up a formula embracing the British and the French viewpoints.

Viscount Cecil maintained that the only armament capable of limitation was that which could be placed in the field immediately on a declaration of war.

France also urged consideration of the rapidly with which other states could come to the assistance of a nation attacked in ordering reduction of standing forces.

Hugh Gibson, American representative, supported a proposal that a technical subcommission establish what questions the commission as a whole can discuss and what are purely technical questions.

Gibson also pointed out the necessity of separating political and military aspects of all questions.

UPTURNED CANOE MUTE EVIDENCE OF A TRAGEDY

Winnipeg, Man., May 19.—(UP)—Near the Red Lake gold fields, 100 miles east of Winnipeg, an upturned canoe bears mute testimony of a tragedy which overtook two young Englishmen, who were on their way to the newly opened mineral area of northwestern Ontario.

The canoe, two boys scout hats and a couple of paddles tell their own tale.

Briscuit, an Indian, reports that he found these articles, washed ashore about four miles from the Hudson Bay company's post.

This is coupled with the information that the two young Englishmen, tenderfoot, set out in a canoe laden with a typewriter, with intentions of collecting information for stories on the rush to the gold area in the Red Lake district. They were Stanley Quinn, 23, and Sydney Stebbings, 20, who had been out from the old country only about six months.

CAR SERVICE SUCCEEDED BY BUS TRANSPORTATION

Manitowoc, Wis., May 19.—(UP)—By a vote of 12 to 2, the Manitowoc city council voted the Wisconsin State corporation permission to discontinue street car service within the city and put on a bus service. The corporation, however, will continue its interurban service between Two Rivers and this city.

DROWNED WHEN HE FELL FROM DOCK

Rhinelander, Wis., May 19.—(UP)—Thomas Simpson, 48, was drowned in Lake Kewauaugau, near Minocqua, last night when he accidentally fell from the dock into the lake. Simpson was unmarried and owned a farm near Hartford Junction.

BANDS OF REBELS ATTACK SYRIAN TOWN OF BAALBEK

Beirut, Syria, May 19.—(UP)—Bands of rebels under Akkash, a native chieftain, attacked the ancient city of Baalbek, about 35 miles from Damascus, burned the chief tourists hotel and killed three villagers. They retired on the arrival of French forces.

AUTO BURSTS THROUGH WALLS OF ST. PAUL HOME

St. Paul, May 19.—(UP)—Unhindered and unharmed an automobile burst through the wall of the home of Mrs. James McGulre Tuesday night, impolitely disturbing the occupants.

Mrs. McGulre was so frightened she fainted.

But Dr. H. M. Christman was at the wheel of the unwelcome visitor and he revived her, while he explained he had lost control of the automobile in attempting to avoid a collision with another.

PENNSYLVANIA G. O. P. FAVORS LIGHT WINES

PRIMARY ELECTION REVEALS SUCH PREFERENCE OF VOTERS

BEER ALSO FAVORED, BRINGING REBUFF TO THE ADMINISTRATION

By PAUL R. MALLON (United Press Staff Correspondent)

Philadelphia, May 19.—Pennsylvania republicans today were on record in favor of light wines and beer through a primary election which incidentally brought a rebuff to the national administration.

William S. Vare, political leader of Philadelphia, who told his supporters that a republican congress in 1928 would modify the Volstead act, if he were elected, seemed to have been chosen republican senatorial candidate by about 5,000 plurality, as the count in the republican primary stood early today. He ran strong in Philadelphia with a 226,000 plurality.

With 5,112 districts out of 8,281 in the state reported, the vote was: Vare, 497,573; Pinchot, 184,481; Pepper 325,586.

Vare's plurality over the present incumbent, Senator George Wharton Pepper was when that calculation was made early today 171,987.

The remaining districts, however, are strong for Pepper, and Vare's strength was expected to be cut down considerably.

Pepper made his campaign on support of the Coolidge administration with the most active support Secretary of the Treasury Mellon has ever given a candidate in his home state, but he went down to defeat with Governor Pinchot, drier of the dries and a Rooseveltian figure. Pinchot seems hopelessly beaten.

STATE REFERENDUM ON LIQUOR SEEMS CERTAIN IN NEW YORK

Albany, N. Y., May 19.—(UP)—A state referendum on liquor today seemed assured.

After hearing arguments by wets and dries Gov. Al Smith has made what was interpreted as an announcement he would sign a bill providing for a vote on Volstead law modification.

If Gov. Smith signs the bill—and here it was believed he would sign it today—if the dries fail in projected court proceedings to prevent the referendum, then New York will take the first vote on prohibition in the country since the law became effective.

The vote will be at the general election.

The ballot will be made a test of strength by both sides in the prohibition controversy it was indicated by the arguments in the hearing before the governor. The dries were openly understood to be ready to carry the fight into the court by asking an order preventing the secretary of state placing the issue on the ballot. They argue it is an improper question to be submitted.

"I have heard the radicals on each side," Gov. Smith said in discussing the referendum bill, "and it seems to me it is time to find out what the great army in between thinks and feels."

CHARGED WITH FORGING \$200 WORTH OF CHECKS

St. Paul, May 19.—(UP)—Charged with forging \$200 worth of checks, Solomon Rishor of St. Paul, is being held here today for authorities of Harrison, Neb., and Phillip, S. D.

SCENE OF THE COLLISION NEAR ST. PAUL

MOST OF THE INJURED PERSONS WERE PULLMAN PASSENGERS

RAILROAD OFFICIALS ARE CONDUCTING AN INVESTIGATION

St. Paul, May 19.—(UP)—A collision between a passenger and a freight train inside the city limits of St. Paul shortly before 8 A. M. today resulted in injuries to a score of persons, it was reported.

Fifteen persons were taken to hospitals for treatment and five others less seriously injured were given emergency attention at the scene of the wreck. No one was killed.

The collision occurred between a passenger train on the Chicago, St. Paul, Minneapolis & Omaha railroad and a freight train on the Chicago, Milwaukee & St. Paul, which crosses 1½ miles west of the business district of the city.

The Omaha train was due in St. Paul at 7:25 A. M. and had not reached the St. Paul station. It was behind schedule and was making up lost time, according to reports to the railroad. The freight train had orders to give the Omaha train the right of way.

On the same line but traveling in opposite directions, the trains came together with an impact that telescoped the engine of the passenger train and threw the tender of the freight train off the track. Wadings of coaches were smashed.

The freight train was to have switched from the Omaha main line to the St. Paul intracity line. The two join a short distance beyond where the collision occurred. For some reason the freight train had not reached the switch. Railroad officials are conducting an investigation to determine why the way was not cleared for the passenger train.

Most of the injured persons were Pullman passengers.

Names of those hurt as reported to hospitals were:

W. P. Krabinick, St. Paul, fireman on passenger train, both ankles sprained in leap from engine cab.

William McCall, St. Paul, brakeman on passenger train, concussion of brain.

Charles Mayo, Rulo, Neb., back injured.

S. M. Rowell, Minneapolis, Pullman conductor, cut and bruised.

M. R. Woods, Los Angeles, cut and bruised.

Joseph M. Shapirio, New York, injured back.

H. G. Rush, Omaha, of the St. Clair Refining Company, en route to Minneapolis, to take charge of the company's branch, injured back.

Al Gurney, St. Paul, engineer of freight train, cut and bruised.

A. G. Morrell, St. Paul, fireman of freight train, cut and bruised.

John Rafford, St. Paul, Pullman porter, possible internal injuries.

Kidden, address unknown, face and head badly cut.

SECOND ATTEMPT TO ROB POSTOFFICE AT WILLMAR, MINN.

Willmar, May 19.—(UP)—A second attempt to rob the Willmar postoffice was frustrated early today because the burglars were not patient enough.

Traces of the attempted robbery indicated that the burglars became exasperated by their failure to open the postoffice vault. The combination knob of the vault had been pried off, but apparently the bolt inside refused to budge. Revolver shots had been fired in an effort to dislodge the bolt.

No one saw the robbers, who entered through a window, the same window that was used March 1, when the vault was robbed of \$500.

BRITISH COAL MINERS BELIEVE STRIKE TO CONTINUE

London, May 19.—(UP)—British coal miners today freely predicted that the strike would continue following last night's unsuccessful meeting between Premier Baldwin and the head of the striking miners' union.

The premier is understood to have maintained the attitude of the cabinet expressed last month, that there was necessity of an immediate wage reduction as a preliminary condition to continued negotiations.

August Samuelson, pastor of the Clara Lutheran church returned from Duluth last night where he attended the preliminary organization meeting of the Northland Conference of the Lutheran churches of the Augustana Synod with Duluth as a center. The sanction of the new Northland Conference will be dealt with at the Augustana Lutheran Synod meeting in June at Philadelphia.

Rev. Samuelson was elected secretary of the new organization which takes in the northeast part of Minnesota and has an approximate membership of 12,000. Fifty delegates attended the meeting. Rev. C. A. Eckstrom, of Duluth, is the new president.

Card of Thanks
I wish to thank Fitzsimmons and Son for the genuine leather upholstered rocker which I received, in guessing the number of tacks in the chair.

MISS GENEVIEVE YOUNG,
213 N. 9th Street.

Times Change
Going to Sunday was a day about the hereafter, not a day there—Duluth Herald.

Defeats Its Object
If punishment reaches not the mind and makes not the will supple. It hardens the offender.—Locke.

TAYLOR SALES SERVICE

Are You Hard To Fit?

We like to serve the woman who is "hard to fit."

We served a lot of them to their entire satisfaction.

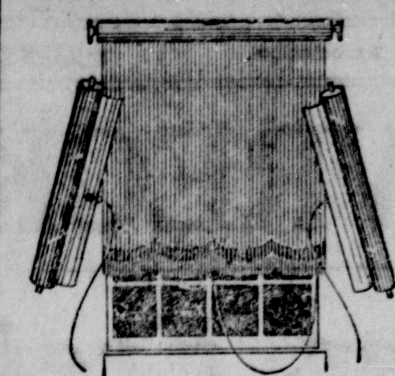

And that satisfaction is expressed by the number of friends they send to this store.

Nothing is as unsightly as a pair of ill-fitting shoes. If on the other hand your shoes fit perfectly, they add to your entire appearance.

When in need of another pair of shoes, see us and we will fit you correctly in the latest styles.

CALL FOR BIDS BUILDING HOME

Plans And Specifications of New Elks Building Are Accepted

BIDS TO CLOSE JUNE 1

Many Outside And Local Contractors Expected to Bid For Various Contracts

With the plans and specifications of the new Elks building to be constructed at the corner of Sixth street and Laurel street this summer at the approximate cost of \$115,000, accepted from the architects, Schaefer and Fisher, St. Cloud firm, the building committee, of which H. P. Dunn is chairman are calling for bids from contractors, bids to close at 2 p. m. June 1.

Plans and specifications are on file at Dunn's Drug store, where Mr. Dunn will receive the bids.

It is expected that there will be a number of bids received from outside firms as well as local contractors.

The building committee specially request that the successful contractor purchase material for the erection of this building from firms located in Brainerd whenever possible and advisable, and also to give preference, where possible, to local labor.

TELEGRAPH CASE GOES TO JURY

Clement H. Ellis Sued the Western Union Company for \$9,500

ALLEGED DELAYED SERVICES

Judge Stanton Sentenced Oscar Haugen and Leo Mandery

The case of the jury trial of Clement H. Ellis vs. The Western Union Telegraph company, a corporation, Manuel LeFleur, and C. E. McIntyre which has attracted interest in district court proceedings went to the jury at 2:15 p. m. today.

The case is that of a delay in the delivery of a telegram to Ellis which resulted in what he claims as \$9,500 loss to him, for which he claims damages, when he failed to receive the telegram on time as to the date when an option of land he held, expired. The case revolves around a land deal in Florida.

Suspended sentence in the case of good behavior for one year, but sentence to St. Cloud penitentiary if not, was the sentence meted out to Oscar Haugen and Leo Mandery who pleaded guilty to robbery in the third degree, at the district court.

PUBLIC LIBRARY ANNUAL REPORT

Reveals Interesting Figures in Regard to Many New Borrowers

MRS. T. JONES LIBRARIAN

Funds Needed to Purchase Additional New Books and Equipment

The annual report of the Brainerd Public Library reveals many interesting figures, especially in the number of new borrowers and total number of books lent during the year.

Due to the untiring efforts of Mrs. T. Jones, the librarian, the original meagre patronage has been built up to the statistics quoted below. The only thing lacking is funds with which to carry on improvements, purchase new books and necessary equipment.

Number of volumes in library at beginning of year, 7,660.

New children's books added, 388.

New adult books added, 548.

Number of books withdrawn during the year, 503.

Total number of books at the end of the year, 8,093.

New children borrowers, 396.

New adult borrowers, 643.

Total number of new borrowers, 1,039.

Fiction lent to adults, 21,758.
Non fiction lent to adults, 2,873.
Fiction lent to children, 12,652.
Non fiction lent to children, 3,993.

Total number of books lent during the year, 41,276.

Rentals and fines for the year, \$400.41.

Total receipts for the year, \$3,490.27.

Total disbursements, \$2,755.28.

This leaves a balance of \$734.99 which has to pay all the running expenses until the next settlement, a period of three months.

MEETINGS AT GARDNER HALL

Meetings Every Night This Week at 8 P. M. Except Saturday

The revival services which began last Sunday in Gardner hall, with Rev. H. J. Anderson, the Soldier-Evangelist, as speaker, and Rev. L. Fletcher leading the singing, will continue every night this week except Saturday.

Last night Rev. Anderson spoke on

the foundation stones of true revival, these being prayer, faith, the presence and conviction of the Holy Spirit, and a willingness on the part of the Christians to work. Rev. Anderson is a very earnest and forceful speaker, clearly bringing forth the Word of God so every one can understand it. "There are some things we can do to help the revival," Rev. Anderson said, "and one of them is to speak to every one you can about the meetings, and invite them to attend. Use your spare moments, and go out and tell some one of the services and God will not fail to bless."

Rev. Anderson and his workers desire the co-operation of all Christians in Brainerd in this campaign for souls. A cordial invitation is extended to all to come this evening. There will be special music and singing, and Rev. Anderson will speak.

GEORGE MOODY IN TOWN

GEORGE W. MOODY, for years the efficient court reporter of Judge W. S. McClenahan, who in 1923 emigrated to California, is in town today. The first thing George said was, "I want to renew my subscription to THE BRAINERD DISPATCH."

"The paper is a connecting link with our old home and we read every line of it, even the advertisements, and occasionally we send in a mail order from California. I have continued to wear Minnesota shoes, Minnesota hats and Brainerd clothes, for Mr. Molstad continues to make my suits."

Mr. Moody drove his automobile from Fullerton, California, and said that nowhere did he visit any city anywhere near the size of Brainerd that seemed half so prosperous. "Brainerd in a business way looks better than any similar town," said Mr. Moody.

In California Mr. Moody built a number of houses and sold them at a profit. He has regained his health and the warm weather of California worked a swift improvement in his eyesight. He has, however, never done any more court reporter work.

Fullerton, where he lives in California, is a town of 11,000 and is in the heart of the orange country. It is 26 miles south of Los Angeles and is a most beautiful, little city. It is 121 miles north of Tia Juana, old Mexico.

In his motor trip Mr. Moody saw heavy rains in New Mexico and Arizona, the first in seven years. That's probably the place where some of the moisture intended for Brainerd has traveled to. This is a freak rain in that section of the far south, for the usual rainfall is a little moisture in July and August.

Summer showers were seen in Kansas and Mr. Moody says the wheat crop there never looked better. At the various garages and tourist camps along the way, Mr. Moody advertised Brainerd's tourist camp as being the most attractive in the United States and told them of all the conveniences possessed in Brainerd. He was rewarded by obtaining promises of many tourists to visit Brainerd and the 10,000 lake region during the coming summer.

Out in California Mr. Moody has frequently seen Herb Peterson, Roy Waite, George Coppersmith, Contractor Russell who is a brother of the local letter carrier, H. J. Hage of Deerwood, Charles Adams of Deerwood, Douglas Armstrong of Inglewood, and last but not least our own Tommy Wood of Hollywood.

Mrs. Moody and Miss Ruth enjoy California very much. Ruth is teaching English in high school at Fullerton; Mrs. Moody will possibly visit Brainerd during the coming summer.

INTERESTED IN WATER LEVELS

BRAINERD misses Leon E. Lum. He was one of the most ardent champions for adequate water levels in our lakes. In looking over some old correspondence we came across a letter he wrote in July of last year, addressed to the Secretary of War.

He mentioned: "The U. S. Engineer in St. Paul is releasing water from the upper Mississippi reservoir at a time when he knows and everybody on the river knows is wholly improper and says it is under your orders."

"As to the Gull lake reservoir which was built by private subscription in part, the release is in violation of the understanding with the government."

"If the Mississippi above St. Louis is to be used, there must be water in September and October to move crops and coal. The reservoirs were intended to store the June and July rains and control spring floods. The river is low and the reservoirs are low now. Action should be prompt."

In additional memoranda Mr. Lum wrote: "This or preferably an editorial to the same effect should be published and a copy sent the senators and Congressman Knutson. A. M. Opsahl has the engineer's letter. It contains the only good excuse (if true) the engineer's office ever had."

Lum has passed away, but the good work he started is being carried on by our citizens. In a telegram addressed to Mr. Opsahl, Congressman Knutson called attention to a meeting of U. S. engineers at the Secretary of War office on Monday this week. It takes time to make an impression on a government department, but with a united front of Brainerd citizens and organizations, tourist and resort owner interests, Minnesota congressmen and senators, it is hoped to have this water level question of our lakes and the Mississippi river placed on a modern footing, cognizant of the developments which have taken place since lumbering and logging has about vanished.

APPRECIATES EDITORIAL

In a letter to THE BRAINERD DISPATCH, J. F. Gould, commissioner of Game and Fish, Department of Conservation of the State of Minnesota, writes:

"I want you to know this department very much appreciated your editorial under the caption 'Water Levels, Fish and Game' which appeared in your issue of Thursday, May 6th."

"I wish every paper in Crow Wing, Aitkin, Cass and Itasca counties at least could reproduce the same and it would not be out of place for every paper in the state to do so."

"More power to you and believe me we need all the help we can get from every possible source. Yours very truly, J. F. Gould, Commissioner."

GAS TAX MAY REACH \$5,000,000 IN YEAR

THE collection of the gasoline tax is most efficiently carried out in Minnesota and the economy shown in such collection is astounding. The cost of collecting the gas tax has averaged \$289 per month, says Hjalmar Nilsson, chief oil inspector. This amounts to 60 cents per \$1,000. The gas tax is collected in the same manner as the inspection fee, and the extra expense is principally in checking refunds.

The net receipts from the gasoline tax during the first 11 months the law has been in effect were \$4,636,366.24 according to figures given out by the chief oil inspector. Total receipts were \$4,805,860.62 and refunds \$169,494.38. At this rate the net receipts for the first year of the gas tax should exceed \$5,000,000. The money goes into the trunk highway fund.

THE up to date Gypsy, like the wealthy Indian of the Oklahoma oil fields, now travels in his automobile.

"SOME WILD NOTIONS I HAVE KNOWN"

By the REV. ROY L. SMITH, D. D.
Pastor Simpson M. E. Church, Minneapolis

"THE EARLY BIRD CATCHES THE WORM"

This philosophy works well for the bird but it is disastrous for the worm. Being the early worm is dangerous business.

A prominent American banker has estimated that more than a billion dollars is lost in the United States every year through bad investments, fake securities, bogus stocks, blue sky, etc.

An Oklahoma newspaper has figured it out that at least five hundred and fifty dollars has been lost in fake oil stock for every dollar's worth of oil that has been pumped out of Oklahoma's wells.

Before any man rushes out to get in on the ground floor he should assure himself that the floor is well laid, otherwise he is liable to go through into the basement. Thousands of men seem to be eminently successful as early worms.

It is as dangerous to be the first to take up with new ideas as to be the last to give up old ones.

This wild rush to be the first to read the latest book, first to wear the new styles, first to advocate some new idea of reform, first to embrace a new fad or first to spring some new sensation is a mania that exposes us to great hazards.

Russia has brought upon herself untold miseries by trying to adopt new and untried theories of government. The history of government is full of the stories of failures who have committed themselves to new theories and ideas before they were adequately demonstrated.

The best solution of the sex problem is the pure love of a good man for a chaste woman. True, some early worms have been making much ado about some new sex theories, but monogamy still seems to be the best solution thus far devised. Many a heart has broken trying to find some other.

It usually pays any worm to take time to look about and get his facts.

Polarine and "Bill"

"Bill" is a repairman, and he's a good one. He tunes up or overhauls your motor as required, and he does a good job.

You gladly do without your car for the day that "Bill" has it because it comes back purring, eager and lively.

But "Bill" must be paid. Being a skilled mechanic his charges are sizeable.

If "Bill" is honest he will tell you that correct lubrication will cut down his charges very materially.

He will tell you that most of the damage that he must repair is caused by the deadly work of friction.

"Bill" can tell you how to minimize friction and lengthen the life of your engine. If he is interested in giving you real service he will tell you that the best way to get a maximum of service from your car is to use Polarine. The Polarine film will protect all the frictional surfaces of your car.

There is a grade of Polarine made to give perfect lubrication in your car. When you fill the crank-case with that grade of Polarine, after thoroughly cleansing your motor with Polarine Flushing Oil, your engine trouble will be minimized.

Polarine acts as a cushion, resilient, tough, resistant. The Polarine film maintains its lubricating body. It never breaks down. It will enable you to get a maximum of mileage from your gasoline, it seals the pistons against the escape of power, and it prolongs the life of your engine. Use more Polarine and you'll see less of "Bill".

Consult chart at any Standard Oil Service Station or at any authorized garage for the grade made for your car.

Standard Oil Company
(Indiana)

BRAINERD, MINNESOTA

SEEKS TO BAR REPORTERS FROM DIVORCE TRIAL

Madison, Wis., May 19.—(UP)—Judge A. C. Hoppmann still refused today to make known his decision concerning exclusion of newspaper representatives from the divorce trial of Frank Lloyd Wright against his wife, Marion Noel Wright.

Proceedings are scheduled to start at 9 a. m. tomorrow.

Spectators will be denied admission to the court room.

Mrs. Wright will be represented by Harold Langer and Herman Grotzphorst, Baraboo attorneys, and Wright by Levi Bancroft, Richland Center.

Growth of Sugar Cane

Sugar cane grows in single stalks, the mature cane reaching a height of from 8 to 20 feet. A plantation of cane looks much like a field of Indian corn stalks of enormous size.

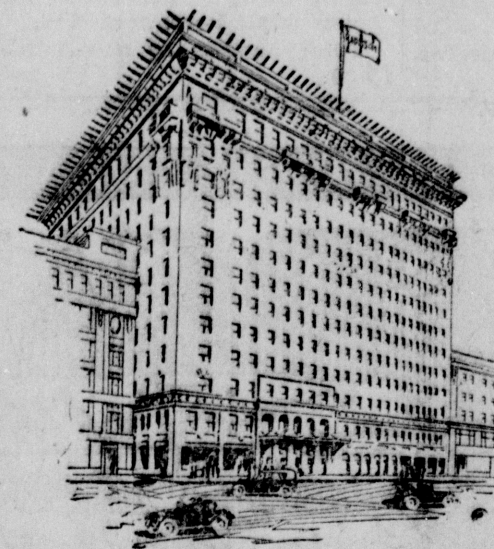

STOP THAT BACKACHE!

Many Brainerd Folks Have Found the Way

Is a dull, nerve-racking headache wearing you out? Do you feel older and slower than you should? Are you tired, weak and nervous; find it impossible to be happy, or enjoy the good times around you? Then there's something wrong and likely it's your kidneys. Why not get at the cause? Use Doan's Pills—a stimulant diuretic to the kidneys. Your neighbors recommend Doan's. Read what this Brainerd resident says:

Carl Sorman, 709 S. Broadway, says: "My back pained continually. Mornings I was stiff and sore and I couldn't stoop without getting a knife-like jab across my kidneys. My kidneys acted too frequently and caused me annoyance. I used Doan's Pills from Skauge's Drug Co. and they fixed me up in fine shape." 60c. at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y. —Advt.

CAMP CLEARWATER OPENS MONDAY, JUNE 14

BOY SCOUTS ARE REGISTERING NOW FOR CAMP SEASON

OVER FIFTY BOYS HAVE ALREADY MADE ARRANGEMENTS TO BE THERE

SEASON IS DIVIDED INTO FOUR PERIODS; WILL ACCOMMODATE 192 SCOUTS

The registrations for Camp Clearwater have been coming in very fast indeed, there being better than fifty registrations at the present time. This shows the popularity which the camp enjoys and should be somewhat of a warning to those who are planning on going if they have not already registered.

The camp opens June 14th. The time is divided into four periods, the first period being two weeks long from June 14th to June 26th, the second period from June 28th to July 10th. The cost for these two periods is at the rate of \$3.00 a week or \$6.00 for the period (no boys will be taken for one week during this time). The second two periods are each one week long, the first being from July 11th to July 17th and the fourth from July 18th to July 24th. The registration fee is \$1.00 which is applicable on the rate of \$3.00 per week, thereby making \$5.00 payable on arrival at camp for the first two periods or \$2.00 for either the third or fourth. All registrations for camp must be in by June 2nd, in order that plans may be properly completed for the buying of food and the arranging of the program.

When a fellow stops to think that better than 300 Scouts would like to go out to camp and that only 192 can go, he realizes that he surely wants to get his registration in quick because chances are he may get left if he doesn't. Talk it over with Dad and Mother tonight and bring in your registration tomorrow.

Why Go to Camp?

Camp is the greatest living American institution today for the developing in our young Americans a true spirit of fellowship. Scouting is proud of having started some 16 years ago a program of camping which has since spread like wildfire until now every summer hundreds of thousands of boys receive from one camp or another the splendid training that camp life in the Great Out-of-Doors can give.

It is a big thing to try to write of, this camp life and yet on the other hand the results are so definite and stand out so clearly that one has only to open their eyes to see the wonderful progress. No matter whether the boy comes from a wealthy home or the home of smaller means, there is as much for one as the other to be gained.

The concrete things that off-hand comes to one's attention might be listed in the following: learning how to swim, to save not only himself but a pal in need, learning to love the out-of-doors, learning how to team-play and get along with his fellow-men, learning how to complete a given job cheerfully and well, eating a balanced diet for two weeks or one week, whichever the case may be, and then at the end of the day sitting around the glowing embers of the Council Fire and absorbing some of the finer ideals that could only be gained in that way.

One might write a long book on this subject but I think possibly these few suggestions give you the real reason for sending a boy to camp.

SIX NEW SLEEPING CABINS BEING BUILT

Up on the highest hill where the cool breezes are constantly blowing, six sleeping cabins are being built in view to giving the boys most comfortable sleeping quarters. Each cabin is 12x14 with a six foot wall and a canvas roof. They will all have a screen door and the upper half of the wall is of screen thereby making them sunny and airy. In case of bad weather there will be canvas awnings which can be rolled down making the cabin tight against the weather. In each cabin will be double-deck steel beds which assures each boy a comfortable night's sleep. Every father and mother recognizes the fact that if a boy does not get his night's sleep, he is pretty hard to get along with the next day. Therefore, these delightful screened cabins have been provided.

Cast Iron and Rust

The bureau of standards says the extent to which cast iron will rust is, of course, dependent upon the conditions to which it is subjected. For simple atmospheric exposure it is far superior to wrought iron or the ordinary forms of steel. Some of the newly developed alloy steels are just as resistant as cast iron.

WHAT TO BRING

Necessary Articles:

- 2 Heavy Blankets.
- Small Pillow.
- 1 Bathing Suit.
- Comb and Brush.
- Tooth Brush and tube of Tooth Paste.
- Your Uniform or as much of it as you have, if any.

- Camera.
- Needle and Thread.
- Paper and Pencil.
- Musical Instruments (if you think you can play them).

All Articles and Clothing Must be Marked With Owner's Name or Initials and a List of the Same Deposited with Camp Director on Arrival at Camp.

FINE NEW SWIMMING PIER BEING BUILT

A dandy new swimming pier is being constructed, 150 feet long out into 8 feet of crystal clear water. At the end there will be a section 5 feet by 16 feet with a 20 foot tower with several intermediate levels. Two or possibly three spring boards will be placed on the end so that everybody will thoroughly enjoy the swimming period. Mr. Newton will personally supervise the swimming. He is a certified American Red Cross Life Saving Examiner and has also passed the National Swimming Instructor's examination which qualifies him for this work. He was a member of the Varsity Swimming Squad, University of Wisconsin, and will be able to teach not only beginners how to swim but also coach those who know how to swim a better and faster stroke. Mr. Backen, the Assistant Camp Director, holds the American Red Cross Senior Life Saving certificate and will most ably assist in swimming instruction.

Each boy on arriving at camp will be given a swimming examination to ascertain whether or not he can swim and how far. Those who are not able to swim fifty feet will be known as sinkers and be the proud wearers of a little lead sinker on a string around his neck. This he will wear at all times until he earns the A. R. C. Beginner's button for swimming fifty feet. The night he passes the test he will be relieved of the sinker with due ceremony at the camp fire. When he becomes an A. R. C. Beginner, he then starts working for the A. R. C. Swimmer's button which requires a swim of 100 yards, using several strokes and being able to dive. On completing this examination he will be awarded what is known as the Swimmer's "C" which is a black "C" printed with indelible ink on white cloth lettered with the date won on it. This he will wear on his swimming suit and will be his credentials for going out on the end of the pier in water over his depth.

Thus far, the boy has only learned to care for himself in the water, which, of course, is important but how much finer if he can care for others in case of necessity. With this thought in mind the boy is encouraged to keep on plugging and qualify for the A. R. C. Junior Life Saving certificate, thereby learning how to break the different strangle holds, how to properly tow a person in the water and how to apply resuscitation by artificial respiration. Each period at camp there will be one or more swimming meets which will add to the enjoyment of the water for all.

HOW TO GET TO CAMP CLEARWATER

Camp Clearwater is located on a beautiful tract of eighty-three acres with a half-mile shore line on Clearwater Lake. Crow Wing Area Council has a long period lease on this land with the privilege of improving it for a Scout camp.

Clearwater Lake is 16 miles due east of Brainerd. Camp Clearwater is reached by going 14 miles out Trunk Highway No. 18 and there turning off on the old Bay Lake road which goes between Crooked Lake and Clearwater. The camp is to the left of this road and easily found by watching for the sign.

Matterhorn Wasting Away

The Matterhorn, the famous mountain in Switzerland, is slowly wasting away. On an average day in thawing weather, hundreds of tons of fine dirt, clay and rocks slide down the mountain side. On some occasions thousands of tons of dirt slide in a day,

DEFINITE PROGRAM AND POINT SYSTEM

BOYS WILL WORK FOR AND BE GIVEN AWARDS AT CAMP

The mission of Clearwater is to build character, train for leadership, give service, seek health, provide wholesome fun, acquaintanceship with nature and make boys all around Scouts.

Reveille will be sounded at 6:30 in the morning from which time until taps sound at 9:00 the day will be filled with things the boy likes to do, such as hikes, nature lore, pioneering, woodcraft, swimming, games, camp fire with its songs and stunts and last, but to most boys the most important, lots of good, healthy food.

The honor system this year is new but patterned after the likes of every boy with a choice in many cases such that every boy can earn his "C" award. The requirements for the three "C's", which are displayed at Headquarters, are as follows:

Green "C" Requirements
To win a GREEN "C", a Scout must have passed the Tenderfoot test, and secured a total of 30 points by having passed from the following:

Athletics (6 points required)
Swim 50 feet. (A. R. C. Beginner) (Compulsory)—4 points.
Demonstrate to camp director fair proficiency in boxing three two-minute rounds—1 point.

Demonstrate ability to play kitten ball by playing on a team—1 point.
Demonstrate form in dashes, high jumps, broad jump and staff throw—1 point.

Demonstrate ability to team play by having been on a winning team in such games as "Capture the Flag"—1 point.

Learn and demonstrate correctly a set of calisthenics (10)—1 point.

Campcraft (5 points required)
Have had two successive "Best Tents" at inspection (compulsory)—2 points.

Have been proficient in kitchen and one other detail (compulsory)—1 point.

Have helped in some permanent camp improvement (required)—2 points.

Be efficient in making up bed and cleaning up tent—1 point.

Woodcraft (19 points required)
Demonstrate the proper use of knife in whittling by making some simple article, paper knife, etc.—1 point.

Become efficient in making a blanket roll—1 point.

Identify, on a field trip in the woods, 5 birds. (Compulsory)—5 points.

Identify, on a field trip in the woods, 10 plants. (Compulsory)—5 points.

Identify, on a field trip in the woods, 10 trees. (Compulsory)—5 points.

Demonstrate ability to construct 8 kinds of trail signs and tell their meaning—3 points.

Be able to locate 2 constellations of stars and the North Star—1 point.

Red "C" Tests
To win a RED "C", a Scout must have passed the Second Class tests and secured a total of 35 points by having passed tests as required from the following:

Have qualified as Second Class Scout.

Athletics (7 points required)
Swim 100 yards. (A. R. C. Swimmer) (Compulsory)—4 points.

Dive correctly from the surface and bring up bottom in at least six feet of water—1 point.

Win a boxing match with a Scout of equal weight, three two-minute rounds—2 points.

First in a field event—1 point.

First in an aquatic event—1 point.

Campcraft (8 points required)
Have had three successive "Best Tents" at inspection (required)—3 points.

Have been Camp Sanitary Officer for one day and by demonstration shown ability to care for latrine, garbage pit, directed the cleaning of the dining hall, etc. (Required)—3 points.

Have been in a Council Fire program—1 point.

Be able to make fire-by-friction—1 point.

Have helped on some permanent camp improvement in addition to your Green "C"—1 point.

Woodcraft (20 points required)
Make some useful article from wild materials—2 points.

Identify, on a field trip in the woods, 5 birds not to include those for Green "C". (Required)—5 points.

Identify, on a field trip in the woods, 10 plants not included in the Green "C", and distinguish common poisonous plants and berries. (Required)—5 points.

Identify 10 trees not included in the Green "C". (Required)—5 points.

Tie quickly and tell the use of 15 different knots—2 points.

Collect 3 kinds of reptiles and identify them, telling whether or not they are useful to man and

whether they are poisonous—2 points.

Collect 5 common moths or butterflies and identify—2 points.

Demonstrate ability to handle a row boat—1 point.

Gold "C" Tests

To win a GOLD "C", a Scout must have passed the First Class tests and secured a total of 52 points by having passed tests as required from the following:

Have qualified as First Class Scout.

Athletics (9 points required)
Qualify for the A. R. C. Junior Life Saving requirements (compulsory)—5 points.

Have taken first in two field events, one of these to be a Scout event—1 point.

Have taken first in two aquatic events—1 point.

Have been a captain of a team for one period (can qualify either this period or at a past period)—2 points.

Show proficiency in diving by demonstrating the following:

From low board—straight front, back, front jack—one optional. One from each of different levels of high dive—2 points.

Have served one period as a Junior Life Guard—2 points.

Campcraft (10 points required)
Have been a cabin leader for one period—4 points.

Have had four successive "Best Tents" (Compulsory)—4 points.

Have aided in some camp improvement not included in Green or Red "C"—2 points.

Have been proficient in all fatigue details (compulsory)—1 point.

Know how to prevent breeding of flies and mosquitoes and know diseases conveyed by same—1 point.

Make a piece of camp furniture—2 points.

Make fire-by-friction in less than a minute—2 points.

Woodcraft (32 points required)
Identify 10 birds not included in Green or Red "C" list. (Compulsory)—5 points.

Identify 10 plants not included in Green or Red "C" list. (Compulsory)—5 points.

Identify 10 trees not included in Green or Red "C" list. (Compulsory)—5 points.

Demonstrate how to make a long, short, eye and back splice—2 points.

Pass Merit Badges in Pioneering, Bird Study, Swimming, Life Saving, Camping, Forestry (5 out of 6 compulsory)—3 points each.

Prove ability to use a compass in the woods—2 points.

Prove ability to spend a night in the woods comfortably with only food, knife and axe. (Compulsory)—5 points.

This year for the first time a very great honor is to be bestowed upon one camper at each period. The Scout who proves himself to be the best all around camper, showing commendable qualities in leadership, team play, sportsmanship and advancement, will be awarded the coveted rank of a "Black Buffalo," this badge to be worn on his left sleeve just below the shoulder seam.

This emblem also is on display on the bulletin board at Headquarters. Come take a look when you bring your registration card.

Who Wants a Baby Free?

Gulbransen has just added to its already famous family a "darlin' little Baby Upright (Piano of course) just 3 feet and 8 inches high, and a name must be had for it. The person suggesting the accepted name will be given one of these "darlin's" absolutely free. It will cost you but two cents to mail your name, or less if you bring it in.

This new Baby Upright will be seen in the window of the Hall Music House in a few weeks. Look for it.

Hall Music House

Rheumatism

BAUME BENGUE (Ben-Gay) gives quick relief from the agonizing pain of Rheumatism, Neuritis, and every ache and pain. Its penetrating warmth relieves the congestion and soothes the inflamed nerves.

GET THE ORIGINAL FRENCH BAUME BENGUE (ANALGESIQUE)

EATS WILL BE THE BEST OBTAINABLE

MENU MADE UP BY DR. WILDER OF THE MAYO CLINIC

The food at Camp Clearwater will be of the very best, cooked by one who is an expert. Mrs. G. Lukens has consented to be our chef at camp which assures the best ever in food.

The menu as we have it is worked out so the boy receives each day not only the proper kind of food but the proper amount of what is technically known as calories and vitamins along with the iron and other much talked of properties of food. A few sample menus are as follows:

Breakfast—

Oranges

Hot Cakes with Syrup

Bacon

Milk or Cocoa

Dinner—

Roast Chicken, Sweet Potatoes

Buttered Cauliflower

Lettuce and Tomato Salad

Raisin Bread, Ice Cream

Supper—

Macaroni and Cheese

Stewed Tomatoes

Celery

Pineapple Sugar Cookies

Milk or Cocoa

By running down the list the fourth day looks interesting so we will also mention it:

Breakfast—

Cream of Wheat

Sausage and Fried Apples

Corn Muffins and Syrup

Milk or Cocoa

Dinner—

Swiss Steak with Gravy

Boiled Potatoes

Candied Carrots

Cold Slaw

Doughnuts, Milk

Supper—

Cream of Tomato Soup

Crackers

Hard Boiled Eggs

Spinach with Lemon

Chocolate Blanc Mange

Cookies, Milk

These two sample days will give you some conception of the splendid food that is to be served every meal throughout the entire camp season.

Wine Barnes will be in camp throughout the entire summer as Assistant Cook, which position he has shown himself proficient in the past season.

Among the several innovations that have been worked out at camp this summer which will prove of interest to everyone is the method of washing dishes. Each cabin will have its own table for which it will be responsible, every boy to wash his own dishes which sounds like a cumbersome way of doing it but due to the arrangement as described in the following, is very efficient.

A large barrel is to be put on a

platform just outside of the cook shack. This will be connected with the cook range by pipe which runs through the fire box and back to the barrel thereby heating the water which will be placed in barrel. Then from the bottom of the barrel will be a long pipe with small holes at six inch intervals on the bottom side. Running along underneath this pipe will be a trough to catch the water when it is turned on. With this arrangement the boys as soon as they finished eating are dismissed, each one taking his plate, bowl, cup, knife, fork and spoon, lining up along the trough. The water is then turned on which gives each boy a stream of hot water which enables the entire group to wash their dishes in fresh hot water with soap in about two minutes. They then push along to the end where there is a table with towels for drying their dishes and from there they return to the mess hall and after washing their tables, turn their dishes up side down and are all ready for the next meal. This method eliminates the long K. P. duty where three or four boys washed all the dishes. It is probably the most sanitary method of dish washing there is as no two dishes are washed in the same water but each one in fresh, hot soapy water.

BRAINERD'S ODDEST STORIES OF TODAY

Perhaps an apology is due C. J. Werner, one of the leading shoe salesmen of the local branch of the J. C. Penney company. In an interview with Mr. Werner this morning he presented the lamentable fact that Monday's edition of the oddest stories had failed to enumerate his name in conjunction with the rest of Brainerd's illustrious fishermen. He claims that Lady Luck, more amiable than usual, had granted him five fish out of a possible 20, or, in plain arithmetic, he caught one-fourth of what could have been his. "And, furthermore," he added "if I hadn't put wagon grease in my fishing reel it might have worked better."

Jewel Fad Invites Theft

A new British fad of wearing necklaces with strings hanging down the back, is viewed with alarm by Scotland Yard. Detectives assert that precious stones are thus offered temptingly to the thief, who can snatch them much more safely than when worn in the regulation manner, with the strings of jewels at the front.—*Minneapolis Tribune.*

Set Them an Example

You will find that things are pretty sure to go right if you do.

SCOUT EXECUTIVE B. P. NEWTON TO BE IN CHARGE OF CAMP

WILL BE ASSISTED BY JAMES BACKEN OF MINNEAPOLIS, AND OTHERS

SCOUT MASTERS PLAN ON ATTENDING CAMP FOR SHORT PERIODS

The camp is in charge of Scout Executive B. P. Newton and Assistant Camp Director James Backen of Minneapolis and a corp of trained Scout leaders.

Mr. Newton has had charge of Scout camps or has been a leader in them for the past ten summers and is well qualified to give adequate leadership over the camp at Clearwater. Three summers ago he was Assistant Camp Director at the Fargo camp having charge of the water-front and advancement. The next summer he was instructor at the Culver Woodcraft School, Culver, Indiana, which is one of the finest Scout camps in the country, there being three hundred twenty-six boys in camp that summer for an eight-week period. The well known boy's author, and Labrador explorer, Dillon Wallace, was Director of the camp with a staff of thirty-eight under him. Mr. Newton had the opportunity to sit around many a camp fire with him and hear many of his (thrilling stories first-hand). Last summer he was Assistant Camp Director at Winona, Minnesota, where they had a camp of one hundred thirty boys at the time, again having charge of the water-front and commissary. These camp experiences along with visits to the Madison, Wis., camp; Chicago camp and Omaha, Nebraska, camp have given Mr. Newton a very excellent background for his developing the camp and program at Clearwater.

Mr. Backen, who has been hired as Assistant Camp Director, has been at the Minneapolis camp several summers. He is an Eagle Scout with eight years of Scout experience. He is a Junior at the University of Minnesota and member of the Varsity track team, member of the Glee club and knows his stuff on the ukelele and steel guitar. He will be a valuable addition to our camp staff, a man that every boy will want to know better.

The Scoutmasters of the various Troops all plan on being out at camp for at least a few days, thereby adding greatly to the leadership this summer.

"Busted"

Sometimes a girl's ideal is shattered, but often her ideal is just plain broke.—*Florence Herald.*

A big step in the right direction

N. P. BRAINERD NINE TO PLAY HERE SOON

N. P. CITY TEAM IN FIRST HOME GAME SUNDAY

DULUTH NINE COMING FOR A
GAME WITH LOCALS, FAST
GAME SURE

NEW FACES ON HOME TEAM,
STRONG LINE-UP TO TAKE
FIELD

The Brainerd N. P. City Team will open the home season Sunday afternoon with a game against the fast Duluth nine, which comes here with the reputation of being the only team to defeat the strong International Falls team last year.

Sebek was on the card for Sunday here, but yesterday wrote in cancelling the game, so the local managers immediately got busy on the wires to line up a strong team, so the home fans may get a chance to see the boys in action.

The game promises to be plenty fast. The Duluth battery is composed of Hanson, a mighty left-hander, on the mound, and Hostenen on the receiving end. The rest of the line-up will be given later.

The Brainerd team will be one of the fastest ever put on the field for the locals. Nason, a newcomer to these parts, will be seen at second base. Nason is a clever baseman and a heavy clout. He has proved a tower of strength to the team.

Delbern, who threw for Brainerd at Fargo two weeks ago, will again pitch for the locals. He hit a home run and a double in two trips to the plate in that game, besides throwing a fine brand of ball, but lost his game by one score. His battery mate will be Kline, well known for his good work behind the plate. He takes the place of Norman, who is temporarily out with a torn ligament in his left leg, sustained in the game last week at New York Mills. Norman is under doctor's care now, but will be back in the game as soon as his injury permits.

Another new face in the line-up is Ware, who will play third base. Ware is a short player, who has a habit of digging everything that comes his way out of the dirt. Few balls get past him, and his work is pretty to watch.

As this is the first game of the home season, fans are urged to come out and see the boys.

The game calls for a heavy guarantee, and a big crowd is wanted to show the boosting of the team.

Sporting Squibs

California had nearly 2,300 pugilists registered in 1925.

Tommy Burns was the smallest pugilist who ever held the world heavyweight championship.

Boston arena will add a balcony, giving a seating capacity of 10,000 for hockey and other winter sports next year.

Keth Molesworth of Washington, Iowa, was elected captain of the Monmouth college basketball team for next season. He will be a senior next year.

Percy Collins, Chicago, holder of the Midwestern amateur 18.2 ballline billiard championship, has retained his title by winning the annual tourney.

Harold Osborn of Chicago, all-around Olympic champion, won six of the eight events in which he was entered at the Havana university games.

Portland, Ore., is to have a modern stadium in which to stage football games and other athletic events. The Multnomah A. C. is sponsoring the project.

Fred Lamprecht of New Orleans, Tulane university student, won the Gulf States golf championship, defeating J. C. Lebourgeois of New Orleans, 4 to 2.

Eldon Mason of Minneapolis, running guard on the Minnesota basketball team for the last two seasons, has been elected captain of next year's Gopher floor squad.

The historic American Derby, last run in 1904, will be revived July 10 at the new Washington park, Homewood, Ill. The value of the classic is placed at \$100,000.

George Slawson, a one-legged high jumper, who recently competed in a triangular indoor track meet with the teams of Cornell, Dartmouth and Harvard, has a record of clearing the bar at 6 feet 1 inch.

Claim has been made that the Chinese were the originators of polo. It is said that polo was played in China during the Tang dynasty, about A. D. 600, and the theory is that the Chinese learned the game from the conquered Tartars.

New Speed Record

Here is shown Bob McDonogh, youthful speed king, who shattered the world's velocity record for automobiles at the Culver City (Cal.) speedway, when he circled the track at the terrific pace of 143.3 miles an hour.

SEALS START SEASON WITH 6-3 WIN OVER B. A. C.

STEVENS GETS 12 STRIKEOUTS.
ALLOWS BUT FOUR
HITS

RINGER TAKES BATTING HONORS
WITH DOUBLE AND
SINGLE

Game Thursday Night
5:30 P. M.
Y. M. C. A. vs. B. A. C.

The Seals, newest team in the city league race, started their league career with a win over the B. A. C. team, 6 to 3. The Seals are taking the place of the A. O. U. W. team, and has in the team several of the old Workmen players.

Stevens, pitching for the Seals, had the B. A. C. men eating out of his hand, whiffing twelve men, and allowing but four hits, none for more than one base.

The winners began hostilities at the start, counting two runs in their half of the first inning, on a walk, a single by R. Tucker, a fielder's choice, a single by Carlson, and an error. They added another in the fifth, when Ringer doubled, went to third on an error, and came home on a second error.

The B. A. C. squad tied the count in their half of the fifth, when Thompson got a life on an error, Brick singled, Soderlund followed suit, Hegstad walked, and Leneau singled. Leneau took second, and on the next play, with Ware muffing Uddenberg's drive, Leneau was sent home from second, and put out for the third out.

The Seals clinched the game in the first half of the seventh when Claude Tucker walked, Ringer made his second hit of the game, Ware singled, and Bernard singled, three runs denting the plate. Stevens held off the B. A. C.'s in their half, and the game was over.

Ware played a pretty game at shortstop. Ringer, with a double and a single, was the hitting star.

Summary—two-base hits: Ringer, Leith. Bases on balls: off Stevens, 3; off Soderlund, 2. Strike-outs: by Stevens, 12; by Soderlund, 4. Hit by pitched ball, by Soderlund, 1. Umpires—Vanni and Buffalo.

AMATEURS IN ENGLAND ARE TESTED 3 TIMES

DISAPPOINT GOLF ENTHUSIASTS
OF THE UNITED
STATES

By PAUL W. WHITE
(United Press Staff Correspondent)

New York, May 19. — America's amateur golfers, who have invaded England to compete for the Walker cup thus far have failed to display expected form in three important

Golf enthusiasts in the United States are disappointed in the showing of the eight players who will compete in international play as well as in the British amateur championship.

On Saturday the invaders with the single exception of George Von Elm, the young Californian, were badly handicapped by the miserable weather conditions and Major C. O. Hezlet, British champion, won the St. George's challenge vase. Von Elm, fighting desperately in the face of a powerful wind and rain squall, tied for second honors with Robert Harris, British amateur champion.

While Americans were chagrined at their team's showing in the medal event, it was confidently expected they would triumph in match play. This hope, however, did not materialize.

Watching the Scoreboard

Yesterday's Hero—Tony Lazzeri, young Yankee second baseman, whose homer with the bases filled defeated the White Sox, 5 to 3, and gave his team its seventh game in a row.

The Robins and Pirates played their second tie in four days, rain stopping their game with the count four-all in the ninth.

Cleveland made use of Washington's errors and defeated Walter Johnson and his mates 4 to 2.

The Tigers bunched their hits at critical moments and set down the Athletics 5 to 2.

Ehmke held the Browns to five hits while the Red Sox were slugging and Boston was victorious 6 to 3.

With Tineup in great form, the Colonels took the final game of the two game series from the Indians 5 to 1.

Staging a ninth inning rally in which Heinie Groh featured with a drive that drove in the tying and winning runs, the Hens downed the Senators 6 to 5.

Scoring four runs in a ninth inning rally the Saints made it three out of four from the Millers, 6 to 4.

Rain prevented the Brewer-Kaws game at Milwaukee.

Resistance of Phones

Many people have the mistaken notion that the resistance of headphones is a measure of their quality. Actually, radio headphones of 2,500 ohms resistance may be much better than others of 5,000 ohms resistance. The resistance is determined by the length, size and kind of wire used in their construction. Their performance is a matter of proper engineering design and the use of good materials.

Appreciation of Merit

I think that, however a thoughtful man may suffer from the defects and absurdities of his company, he cannot without affectation deny to any set of men and women a sensibility to extraordinary merit. The coarse and frivolous have an instinct of superiority, if they have not a sympathy, and honor it in their blind and capricious way with sincere homage.—Emerson.

HORSESHOE CLUB TO BUILD SIX COURTS SOON

HENRY KRAUSE ELECTED PRESIDENT AT MEETING AT Y LAST NIGHT

ENTHUSIASM FOR BARNYARD GAME RUNS HIGH, TOURNEYS PLANNED

Ten enthusiasts met at the Y. M. C. A. last night and formed the Brainerd Horseshoe Club, and elected Henry Krause chairman for the year. Other officers elected were E. J. Cook, vice chairman, and Alfred Dillan, secretary-treasurer.

The club plans to construct six courts in a central place in the downtown district within a short time, and make the place an attractive meeting place for the barnyard golf artists.

All horseshoe throwers of the city are invited to join. Membership fee was fixed at fifty cents, upon payment of which to any of the officers the member will be enrolled. Plans include the holding of tournaments with other clubs, and throw-offs among the local players.

Beautiful Glass Work

Favrile glass is a variety of iridescent enameled glass, so-called by Louis Tiffany, its inventor, in 1894. As beautiful an example of favrile glass as can be found is the screen in the lobby of the building occupied by the Curtis Publishing company, Independence square, Philadelphia. Maxfield Parrish executed the design. The Tiffany studios executed the screen.

Punished for His Love

The romantic love he bore for Caterina de Atalide, a lady-in-waiting to the queen, caused Camoens, the great Portuguese poet, to be banished from Lisbon in 1546. He was allowed to return in 1570.

Press goes the button---and on goes the light--- NEW HATS OF STRAW.

Thursday, the 20th, is the first official Straw Hat day. If you wish, you can wait to see what the weather is like—but you really shouldn't wait to see how likely the new styles are.

New—1926 models—at the John M. Bye Clothing Co.—all of this year's birth—none with a single birthday.

On Thursday, the 20th, you'll see Straws on every street in the city—but wouldn't it be easier and more convenient—instead of looking all over town—to come now and see these wonders in straw?

\$2.00 to \$4.50

Hupmobile Six
Sedan, five-passenger, four-door, \$1385. Touring, five-passenger, \$1325. Equipment includes 30 by 5.25 balloon tires, four-wheel brakes, choice of two colors. All prices f. o. b. Detroit, plus revenue tax.

Lively Auto Company

NEW SCHEDULE OF RURAL ROUTING

Effective June 1, Pickup Mail For
Dispatch on Same Day Within
30 Miles From Brainerd

BETTER SERVICE TO PATRONS

Brainerd's Seven Rural Routes Now
Serve 3,200
Patrons

A new schedule of rural routing, effective June 1, of pickup mail for dispatch on the same day within the distance of 30 miles from Brainerd has been received by Carl Adams, postmaster here from the postmaster department of Washington.

The changes will bring about better service to the 3,200 patrons in the rural routes.

The following routes have been changed: Star Route leaving here at 8:30 a. m. will perform the service of a rural carrier in route to Flak, thence to Garrison, leaving Garrison at 1 p. m. thence to Dykeman, Flak, arriving at 2:45 p. m. at the station at Loop Route No. 6, gathering the mail for that day for evening dispatch. Route No. 2 and No. 6 absorb all of Route 3. R. C. Falconer, carrier of Route No. 3 relieves temporary carrier Ernest Daniels on Route 4.

The Star route will perform the duties of Route No. 2 as far as the seven mile corner on Oak street and on return trip on Route No. 3 commencing at southeast corner of section 2, of township 133, range 30, running east three miles to the southeast corner of section 4, thence north two and one half miles to the two mile corner on Oak street.

Route No. 2 and No. 6 absorb Route No. 3 with the exception of that part taken by the Star Route. Thirteen miles have been added on Route 6, five miles added to Route 2, and five and one half miles added to Star Route. Nine miles have been added to Route No. 3.

There are seven routes included in this territory of pickup of mail and delivery. No changes have been made in Routes Nos. 1, 4, 5, and 7, all routes leaving at 8:15 a. m., returning at the noon hour, the Star route returning about 4:15 p. m.

The distances covered by the routes follow: Route No. 1, 36 miles; Route No. 2, 33 miles; Route No. 4, 26 miles; Route No. 5, 36 miles; Route No. 6, 44 miles; Route No. 7, 30 miles; Star Route, 54 miles. A total mileage of routing of mail is 259 miles. Better than 10,000 individuals over 10 years of age in Brainerd and rural routes are receiving mail daily through the local post-office.

Previously mail on Route 6, was held over one day for dispatch. Now it is a daily service, dispatch being made on the same day. Garrison and the Star Route also have the same dispatch service.

RESOLUTION

WHEREAS, It has been proposed that the permanent route of State Highway No. 2 through West Brainerd be designated along Florence Street, as continued through West Brainerd, to a point west of the city limits of the City of Brainerd, thence in a northerly direction across the Northern Pacific Railway right of way, using a grade separation at such right of way, to the present intersection of State Highway No. 2 and State Highway No. 19, and

WHEREAS, After careful investigation, we believe that such proposed route would eliminate the two dangerous grade crossings that exist at the present time between Florence Street and the intersection of State Highway No. 2 and State Highway No. 19, and would be of greater service to the vicinity west of Brainerd, and the City of Brainerd, and more satisfactory to the traveling public.

NOW, THEREFORE, BE IT RESOLVED BY THE City Council of the City of Brainerd, that this body endorse the route of the proposed State Highway No. 2 on and along Florence Street, as continued through West Brainerd, and that the State Highway Department be urged to adopt such route as proposed, and

BE IT FURTHER RESOLVED, That a copy of this resolution be sent to the State Highway Department.

Adopted this 17th day of May, 1926.

WM. J. LYONASIS,
President of City Council.

Approved this 17th day of May, 1926.

GEO. A. CAIN,
Mayor.

Attest: E. T. Floener,
City Clerk.

Published this 19th day of May, 1926.

No Longer Rainless Land

Formerly Egypt was practically rainless. Now, owing to irrigation and consequent increase of vegetation, there are about eighteen days heavy rain yearly in the Nile delta.

Surely a Lifetime Pet

SPECIAL TRAIN HERE

North Coast Limited Coach Inspected
by Many
People

Charles Donnelly, president of the Northern Pacific Railway Co., of St. Paul at noon today told the Dispatch that the company had just given an order for 12 mountain type locomotives to be built by the American Locomotive Co., at the cost of \$1,200,000.

"The locomotives to be constructed will be the largest sized passenger locomotives in the service today and will be the only of its kind on the northwest railways. We are looking forward to a good season this year but rain is needed bad" said Mr. Donnelly.

Mr. Donnelly, directors of the company, officials and representatives of financial corporations of New York city are included in the personnel of the special North Coast Limited on the annual inspection tour of the road which stopped at Brainerd all this morning.

The train which was the best equipped train that has ever stopped at the local N. P. station left Brainerd at 12:30 p. m. today for International Falls. From there, the train will proceed on its inspection tour to Winnipeg and from there to the Pacific Coast. The trip will last about two weeks.

The special train was made up of seven steel coaches, special compartments, with all necessary equipment included. The observation car was open for inspection at noon today, there being a large number of local people inspecting the car.

The party included the following: Charles Donnelly, president, Northern Pacific Ry. Co., St. Paul, Minn.

F. E. Williamson, vice president in charge of operation, St. Paul, Minn.

J. G. Woodworth, vice president in charge of traffic, St. Paul, Minn.

George T. Reid, vice president and western counsel, Seattle, Wash.

J. M. Hannaford, vice chairman, St. Paul, Minn.

H. E. Stevens, chief engineer, St. Paul, Minn.

C. L. Nichols, general manager, St. Paul, Minn.

D. F. Lyons, general counsel, St. Paul, Minn.

Silas Wright, general mechanical superintendent, St. Paul, Minn.

R. W. Clark, assistant to president, St. Paul, Minn.

W. H. Strachan, general superintendent, St. Paul, Minn.

E. E. Dildine, superintendent of telegraph, St. Paul, Minn.

A. B. Smith, passenger traffic manager, St. Paul, Minn.

W. H. Gemmell, president, M. & I. Brainerd, Minn.

W. C. Sloan, superintendent, Duluth, Minn.

J. H. Poore, executive assistant, St. Paul, Minn.

C. E. Perkins, director, Burlington, Iowa.

Roy Sturgis, First National Bank of New York City.

B. P. Leeb, Bankers' Trust Company, New York City.

George H. Prince, Merchants' National Bank, St. Paul.

Rudolph Weyerhaeuser, W. N. Biehler, Manager, Gilmore & Pittsburgh R. R., Armstead, Mont.

Concerning Speech Energy
The speech energy of the human voice amounts to very little in the way of power. It is only 125 ergs a second, an almost infinitesimally small amount of power, says the Washington Star. Consonant letters require the least amount of energy. The pitch or frequency of vibrations is must higher for consonant sounds than for vowels, however. An erg is the work done when a body moves one centimeter in the direction in which it is urged by a force of one dyne, and a dyne is a force which when acting on a mass of one gram for one second will change its velocity by one centimeter per second.

The Winner
Mother (to man who has asked hand of her daughter)—In the first place, do you like children?
Sutor—I adore them, madam!
Mother—Ah, that's lucky. Blanche has three by her first husband.—Paris Rire.

Easily Wed in Siberia
Marriage in Siberia is only a matter of taking out a license to wed; divorce is equally easy.

Keeps Mum
"No, Mrs. Hanson, I never brag about my children, though they are above the average in their behavior and intelligence."

BROTHERHOODS IN JOINT SESSION

Bethlehem Lutheran, Norwegian-Danish and Clara Lutheran Churches Represented

75 MEMBERS PRESENT

Carl Anderson of Banquet Committee Was Chef, Assisted by 15 Ladies

The Federation of Lutheran Brotherhoods of Brainerd held a successful banquet at the Norwegian-Danish Lutheran church parlors Monday evening, there being 75 members of the Brotherhoods from the Bethlehem Lutheran, Norwegian-Danish Lutheran church, and Clara Lutheran church in attendance.

Carl Anderson of the banquet committee was the chef and was assisted by 15 ladies from three churches. A four-course supper was served.

John Holvik, of the program committee acted as toastmaster, carrying out his part of the program to perfection. A glee club consisting of four members from each of the Lutheran churches rendered several selections which were all well received. Rev. Michaelson and John Bye also are due much praise for a duet.

Short talks were given by Rev. Bolstad, Rev. Samuelson, and Rev. Michaelson. About a dozen laymen also responded to toasts.

Movement is already on foot for a large reformation festival to be held next fall. The standing committees from the three churches are composed of the following: Bethlehem, Rev. Michaelson, Carl Anderson, and S. E. Engbretson; Norwegian, Danish, Rev. Bolstad, A. Dybvik, and

Carl Olson; Clara Lutheran, Rev. Samuelson, E. Westburg, and J. Holvik.

The officers are:
President—Rev. August Samuelson.
Secretary—S. E. Engbretson.
Treasurer—Carl Olson.

GLEE CLUB CONCERT

Swedish Baptist Organization to Sing at the Church Tonight

The Swedish Glee club will give a concert Wednesday, May 19, at the Swedish Baptist church to which the public is invited to attend. Besides the Glee club several other local artists will perform, including the Misses Geraldine Kiebler, Esther Fogelstrom, and Ida Peterson.

Yeomen Dancing Party

The ladies of the Brotherhood of American Yeomen intend to fill out the May month with a dancing party and lunch. The month of May is ladies month inaugurated by the Yeomen lodge throughout the United States. During this time, the ladies try and show the men what real entertainment is like.

They put on a dancing party last meeting, and tonight every lady intends to bring a cake, the lodge furnishing the ice cream. Each member may ask a friend.

STOCKS SHOW INHERENT STRENGTH

New York, May 19.—(UP)—Events in the stock market today went a long way towards proving that stocks have considerable inherent strength and ability to resist professional selling. After a firmer opening there was concentrated selling in a number of issues which a short while ago suffered from pool selling.

Several of these stocks had such declines while the rest of the market made moderate price concessions but in the main looked on rather placidly.

Later the selling spent its force and the leading issues firmed in price though trading volume was much reduced. The session was mainly a contest between professionals on both sides, the public still being apathetic and those committed on the long side came out the victor.

Announcement of additional \$154-

000,000 American Telephone stock brought some selling and reaction but the stock later showed a gain on the day.

U. S. SHIPPING
BOARD VESSELS
TO BE BUSY

Minneapolis, May 19.—(UP)—Vessels of the United States Shipping board are prepared to handle the grain and flour cargoes which will be exported to Europe in May.

F. M. Darr, manager of the passenger, mail and inland division of the Shipping board, here on business, said the line had increased its shipping facilities in order to take care of the business.

Darr commented that 60 per cent of the exported flour and grain of the northwest is carried in Shipping board vessels.

LAY CORNERSTONE
OF MASONIC BUILDING
NEAR SAVAGE, MINN.

Savage, Minn., May 19.—(UP)—With impressive ceremony the Minnesota grand lodge of the Masonic order has laid the cornerstone of its \$350,000 administration building near here. About 10,000 Masons and members of the Order of the Eastern Star were present.

Albert F. Pray, grand master of the Minnesota lodge, was in charge of the ceremonies. Governor Christianson was among the spectators. The Masonic property covers 300 acres.

Light Spread Before Him

My spirits, if you see, were caught up in a high, solemn exaltation, and I saw all earth's vanities, foreshortened and little, laid out below me like a town from a cathedral scaffolding.—Kipling.

It Depends

It's all right to say "it depends on father" if the son in college doesn't mind being called an "it."

ELKS BUILDING BIDS CLOSE
JUNE 1ST, 1926.
BRAINERD, MINNESOTA

NOTICE TO CONTRACTORS—Sealed bids will be received for the erection and completion of a three-story and basement, fire-proof Elks building. Building to be erected on Lots No. 22, 23, 24, Block 43, Town of Brainerd, Crow Wing County, Minnesota. Bids will be received by Henry Dunn, Chairman of the building committee for the Benevolent Protective Order of Elks Lodge No. 615 up until 2 o'clock P. M. Tuesday, the first day of June, 1926.

Separate bids will be received as follows:

One bid covering material and labor for the general construction of the building, one bid covering the electric wiring, one bid covering the steam heating, ventilation and plumbing.

Each bid is to be placed in a sealed envelope, addressed to H. P. Dunn, Chairman of the building committee, and accompanied with a certified check in the sum of 5 per cent of the amount of the bid. Check to be made payable to H. P. Dunn, Chairman of the building committee, as evidence of good faith, and should the contractor to whom the contract is awarded, for any part of the work, fail to sign the contract and furnish a satisfactory bond, as provided by law within a reasonable date of acceptance, the amount of the certified check is to be forfeited.

The Elks committee reserves the right to accept any bid and reject any or all bids presented.

Bids will be opened publicly at the Elks Lodge rooms at the above time.

Plans will be on file for inspection at the Dunn Drug Store, Brainerd, Minn., Duluth Builders Exchange, Duluth, Minn., Minneapolis Builders Exchange, Minneapolis, Minn., St. Paul Builders Exchange, St. Paul, Minn., and at the office of the Architects. Plans and specifications may be obtained for the various work, by application through the Architects.

By order of the Elks building committee, B. P. O. E. number 615, Brainerd, Minnesota.

H. P. DUNN, Chairman, J. J. CUMMINS, Sec.

Schaefer & Fisher, Architects, 202 St. Mary's Building, St. Cloud, Minnesota.

May 19, 1926. 296-297-298

Bookkeeper Falls Heir to Fortune

"Upon the death of an uncle I inherited \$50,000. I gave up my position and intended enjoying myself when I was stricken with a severe case of stomach trouble and colic attacks. Two of these attacks made me lose consciousness. After treating with our best doctors with little benefit, I decided to try MAYR'S, and it helped me at once. I have been entirely well for past year." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Johnson's Pharmacy and druggists everywhere. —Adv.

A FIRST LADY

Freeland Kendrick, wife of the Mayor of Philadelphia, who also is president of the Sesqui-Centennial International Exposition Association, organized to stage a great celebration to commemorate the 150th anniversary of the signing of the Declaration of Independence. Mrs. Kendrick is shown beside the historic Liberty Bell, which she tapped at a recent broadcasting event when the world was told of completion of plans for the big exposition.

GOV. MOORE
DENIES REQUEST
FOR EXTRADITION

Trenton, N. J., May 19.—(UP)—Governor Harry Moore of New Jersey today denied the state of Wisconsin's request for extradition of Dr. Vincent R. Poole, Cliffside, N. J., physician, on a charge of second degree murder. District Attorney H. R. Salen of Waukesha county, Wis., personally urged the extradition before Governor Moore late Monday.

He charged, in supporting affidavits, that the physician, while driving an automobile in Waukesha county ran down and killed a child and instead of stopping fled, leaving Milwaukee the following morning.

"I do not feel warranted in surrendering a citizen of this state on a warrant charging the crime of murder, when the facts established that what happened was an automobile accident

resulting in the death of a child," said Governor Moore.

In contesting extradition Poole set forth that an indictment had not been found against him.

"The Wanderer" Big Feature Picture at the New Park Friday

Way back in the days when caravans were popular instead of automobiles and caravansaries were the forerunners of road houses, the prodigal son left home to become a self-made man—with the aid of his father's coffers and advice. The former he clutched and the latter he cussed as he mounted his mule and set out for the city under the villainous guidance of a wicked merchant. For then, even as now, there were sirens and scoundrels, gamblers and pawnbrokers to make the road to the city attractive and easy going for the country boy.

Miss Mackaill and Conway Tearle in "Dancer of Paris" Conway Tearle and Dorothy Mac-

kall, two of the screen's most popular stars, take the principal roles in Robert T. Kane's "The Dancer of Paris," showing at the Lyceum last time tonight. This is the first time that these players have appeared in the same film.

All Married People Will Enjoy Picture

Whether you have been married one year or fifty years you will like "The First Year." Fox Films version of Frank Craven's delightful and successful John Golden play which comes to the Lyceum theatre on Thursday and Friday.

Women Rave Over New French Powder

A new kind of face powder is here. Made by a new French Process—stays on until you take it off. Pores and lines do not show. Not affected by perspiration. Gives life and beauty to your complexion almost unbelievable. It is called MELLO-GLO. You will love it. Johnson's Pharmacy and Economy Drug Co. —Adv.

Middle-Age Masticating Jackdaws, magpies, hedgehogs, cranes, peacocks and swans were popular dishes in the Middle ages.

END BUNION PAIN FOREVER

No Need to Suffer Another Day Those Agonizing Torturing Pains

There is one simple yet inexpensive way to reduce inflamed, swollen toe joints and get them down to normal and that is to apply Moore's Emerald Oil night and morning and people who suffer from such enlargements would be wise to reduce them before they reach a more or less chronic stage.

Ask any first class druggist for an original two-ounce bottle of Moore's Emerald Oil (full strength) and refuse to accept anything in its place. It is such a highly concentrated preparation that two ounces last a long time and furthermore if this wonderful discovery does not give you complete satisfaction you can have your money refunded.

Special note: People who want to reduce swollen or varicose veins should get a bottle of Emerald Oil at once. Applied night and morning as directed they will quickly notice an improvement which will continue until the veins and bunches are reduced to normal. —Adv.

Changed in No Way—Except Lower Price
Chrysler "70" Supreme Quality and Performance
Now Offered at Sensationally Lower Prices

Six-Cylinder Chrysler "70"

Reduced \$50 to \$200

	Old Prices	New Prices	Savings
Coach	\$1445	\$1395	\$ 50
Roadster	1625	1525	100
Royal Coupe	1795	1695	100
Brougham	1865	1745	120
Sedan	1695	1545	150
Royal Sedan	1995	1795	200
Crown Sedan	2095	1895	200

(All prices f. o. b. Detroit, subject to current Federal excise tax)

From its very inception the unquestioned leader in modern motoring performance the Chrysler "70" gains, at the new lower prices, even greater pre-eminence in value as well as in quality.

Seventy miles and more per hour with silky smoothness; a flashing pick-up; amazing economy; magical ease of handling; unmatched riding comfort; Chrysler compactness; absolute safety which only Chrysler hydraulic brakes can give; joined to a complete freedom from mechanical worry and an enduring worth proved in tens of thousands of miles

of driving by thousands and thousands of owners—

These Chrysler "70" superiorities, absolutely unchanged even at the sensationally lower prices, continue to be the results of the inherent fineness of that Chrysler quality of design, materials and craftsmanship which from the very beginning have made Chrysler "70" performance unapproachable.

You will find us eager to demonstrate to you these extraordinary Chrysler "70" qualities which make it the most sensational value in all motor car history.

CHRYSLER "70"

Christian-Patton Co.

CORN

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn or corn between the toes, and the foot calluses, without soreness or irritation. —Adv.
